

DOCUMENT CONTROLLED

Legal, Liability, Refunds and Compliance Pack

Limitation of liability • Australian Consumer Law • ACCC • All States and Territories
ISO alignment • Defence / military tenders • Local government procurement

Document ID	OG-LEG-2026-001
Version	1.0 — Effective 17 August 2026
Issuer	OnGuard Protection
NSW Master Licence	000110094 (SLED — Security Industry Act 1997)
Classification	Public-facing contractual instrument + tender annexure
Governing law	Laws of New South Wales and the Commonwealth of Australia
Contact	0432 893 343 • admin@ogprotection.com.au
Website	https://www.ogprotection.com.au/legal/

Mandatory opening statement. Nothing in this Pack excludes, restricts or modifies any right or remedy a person has under the Australian Consumer Law (Schedule 2 to the *Competition and Consumer Act 2010* (Cth)) that cannot lawfully be excluded. “No refunds”, “all care no responsibility”, and similar statements are unlawful if they misrepresent those rights. OnGuard Protection will not use them.

This Pack is issued for commercial, government, council and Defence-adjacent evaluation. It is not a substitute for independent legal advice on a specific contract. Where a written engagement, purchase order or deed is signed, that instrument prevails to the extent of any inconsistency, except that the Australian Consumer Law always prevails.

 17. Governing law, severance and entire agreement
 18. Official references and external links
- Schedule A — State and Territory licence matrix
- Schedule B — ACL remedies decision map
- Schedule C — Tender and Defence pathway diagram

1. Status of this document and how to use it

This Legal, Liability, Refunds and Compliance Pack (“Pack”) is the public legal framework of OnGuard Protection (“OnGuard”, “we”, “us”). It applies to website enquiries, quotations, standing offers, purchase orders, event bookings, patrol contracts, static-guard deployments, and any invitation to tender, request for quote or panel application issued by a Commonwealth entity, a State or Territory agency, a local council, a government-owned corporation, or a Defence prime.

The Pack has three jobs: (1) tell clients, in plain English, what the law already requires of us; (2) limit liability only to the extent Australian law permits; and (3) give evaluation panels a single annexure they can file against WHS, privacy, licensing, ISO alignment, and Defence-adjacent security questions.

OnGuard currently holds New South Wales Security Master Licence **000110094**, issued under the *Security Industry Act 1997* (NSW) and administered by the Security Licensing & Enforcement Directorate (SLED). We do not represent that we hold a master licence in every other jurisdiction unless a current licence number is stated on the relevant quote. Cross-border work is only accepted once the required licence is in force.

2. Parties, definitions and interpretation

Client means the person or entity that requests or receives services. **Consumer** has the meaning in s 3 of the Australian Consumer Law and includes a person who acquires services of a kind ordinarily acquired for personal, domestic or household use or consumption, or who acquires services for an amount not exceeding the prescribed threshold (currently \$100,000). **Services** means crowd control, event security, static guarding, mobile patrols, alarm response, corporate concierge, access control and asset protection, and any related labour or advice. **Site** means the premises, venue, compound or event specified in the booking. **Regulator** includes the ACCC, SLED, a State or Territory licensing authority, SafeWork / WorkSafe, the OAIC, and a Defence security authority.

Headings are for convenience only. A reference to legislation includes amendments and instruments made under it. If a provision is void, the rest of this Pack continues. Nothing in this Pack is a warranty that a particular ISO certificate, DISP membership or security clearance is currently held — those are stated, if at all, only on a signed schedule.

3. Scope of services

OnGuard supplies licensed security labour and site presence. We do not, unless a separate written instrument says so, supply locksmithing, firearms, cash-in-transit, private inquiry, electronic surveillance installation as a Class 2 activity, or legal or engineering advice. The Client remains responsible for site induction content that only the occupier can provide, for facilities that only the Client controls, and for directions that would require OnGuard to break the law.

A quotation is an invitation to treat unless it is stated to be a standing offer. A contract is formed when OnGuard confirms the booking in writing (including email or a signed purchase order) or first deploys personnel to the Site after a clear instruction to proceed.

4. Australian Consumer Law, ACCC and refunds

The Australian Consumer Law (“ACL”) is Schedule 2 to the *Competition and Consumer Act 2010* (Cth). It is applied as a law of each State and Territory. The Australian Competition and Consumer Commission (ACCC) and State and Territory consumer agencies enforce it. OnGuard treats ACL compliance as a non-negotiable operating rule, including on tenders and business-to-business work that still meets the definition of a consumer supply.

4.1 Consumer guarantees that cannot be excluded

For services, the ACL implies (among others) that: services will be rendered with due care and skill (s 60); services and any product resulting from them will be reasonably fit for a purpose the Client makes known (s 61); and, if no time is fixed, services will be supplied within a reasonable time (s 62). These guarantees are automatic. They cannot be removed by a website term, a quote footer, a “no refunds” line, or a verbal briefing (s 64).

It is misleading (s 18 and related provisions) to tell a client they have no refund rights, or that OnGuard accepts “no liability for any loss”, if that statement would hide a guarantee the law will not let us hide. OnGuard will not publish or say that.

4.2 Remedies — major and minor failure

If a guarantee is not met, the remedy depends on whether the failure is major. A major failure in relation to services includes a failure that cannot be remedied within a reasonable time, or that makes the services substantially unfit for their normal purpose or a purpose made known to us. For a major failure the Client may terminate and recover a refund of unused fees, or recover compensation for the reduction in value. For a failure that is not major, OnGuard may remedy by re-supplying the services or paying the reasonable cost of re-supply. See ACL ss 267–269.

Change of mind, a Client-caused lock-out, a Client instruction that made the job impossible, or a weather or force-majeure event that is not our failure, is not by itself a failure of a consumer guarantee. In those cases a commercial cancellation fee may apply as set out in section 15, provided it is a genuine pre-estimate and is not an unfair term.

4.3 How to claim a refund or remedy

- Write to admin@ogprotection.com.au or call 0432 893 343 and identify the booking, Site, date and the problem.
- We will acknowledge within two business days and investigate, including radio logs, run-sheets and the officer's report.
- If the ACL requires a remedy, we will offer re-supply, a partial refund, or a full refund of unused fees, as the Act requires — not as a gesture.
- If we do not agree a guarantee failed, we will say why in writing and name the Client's right to go to a State tribunal, a court, or a consumer agency.
- External help: ACCC (accc.gov.au / 1300 302 502) and the consumer agency in the Client's State or Territory.

4.4 Business clients and s 64A

Where the services are *not* of a kind ordinarily acquired for personal, domestic or household use or consumption, and the ACL still applies, s 64A permits a supplier to limit liability for a failure to comply with a guarantee to re-supplying the services or paying the cost of re-supply. OnGuard relies on that statutory permission in section 5. That limit does not apply to a consumer guarantee that the law will not let us limit, and it does not apply to fraud, wilful misconduct, or personal injury to the extent the law forbids a limit.

5. Limitation of liability (where the law allows)

Subject always to section 4 and to any non-excludable right:

- OnGuard's aggregate liability arising out of a booking is limited to the fees paid (or payable) for the affected shift or, if greater, the cost of re-supplying the affected services.
- OnGuard is not liable for consequential or indirect loss (lost profit, lost opportunity, reputational loss, or loss of a tender) except to the extent the ACL or another non-excludable law requires it.
- OnGuard is not liable for loss caused by the Client's incomplete brief, a Site hazard we were not told about, a direction to act unlawfully, or the conduct of third parties we do not control (including patrons, contractors and emergency services).
- Nothing limits liability for death or personal injury to the extent a statute forbids that limit, or for fraud or wilful misconduct.
- Time bar: a claim must be notified in writing within 12 months of the Client becoming aware of the facts, or any longer period a statute requires.

This clause is a limitation, not an exclusion of the ACL. If a court or tribunal finds a sentence too wide, that sentence is read down (section 17) rather than used to void the Client's statutory rights.

6. Unfair contract terms and standard-form contracts

The ACL unfair contract terms regime applies to standard-form contracts with consumers and with small businesses (including, under current thresholds, businesses with fewer than 100 employees or turnover under \$10 million). A term that causes a significant imbalance, is not reasonably necessary to protect a legitimate interest, and would cause detriment if relied on, may be unfair — and proposing, using or relying on an unfair term can attract penalties.

OnGuard will not rely on a term that lets us unilaterally vary price or scope without a genuine reason and a fair process; that lets us avoid our ACL obligations; or that imposes a cancellation fee that is a penalty rather than a genuine pre-estimate of loss. If a Client believes a term is unfair, they should write to us. We will review it.

7. Licensing — all Australian States and Territories

Security work is a licensed occupation in every Australian jurisdiction. A master licence (or equivalent) authorises a business to provide persons to carry on security activities. Individual officers must hold the class of licence that matches the activity (unarmed guard, crowd controller, bodyguard, cash-in-transit, and so on). OnGuard will not deploy an unlicensed person to a licensed activity.

The table in Schedule A is the national map. OnGuard's current issued master licence is NSW 000110094. Engagements in another State or Territory are accepted only when OnGuard holds, or has lawfully arranged under that jurisdiction's mutual-recognition or local-licence rules, the required business authorisation, and every operative on the Site holds a current local or recognised licence.

Clients (especially councils and agencies) may verify NSW licences on the SLED public register: <https://verify.licence.nsw.gov.au/home/Security>

8. Work health and safety, privacy and surveillance

8.1 WHS

The model Work Health and Safety Acts apply in the Commonwealth, NSW, QLD, SA, TAS, ACT and NT. Victoria has the *Occupational Health and Safety Act 2004*. Western Australia has the *Work Health and Safety Act 2020*. OnGuard and the Client are typically both persons conducting a business or undertaking (PCBUs) at a Site. Each must consult, cooperate and coordinate. OnGuard officers must be inducted to Site-specific hazards. We will stop work that presents a serious and imminent risk.

8.2 Privacy

If OnGuard is an APP entity under the *Privacy Act 1988* (Cth), or if a government contract applies the Australian Privacy Principles (APPs) by flow-down, we will handle personal information in accordance with the APPs: collect only what the job needs, use it for the purpose disclosed, secure it, and not disclose it except as the APPs or a law requires. Incident reports, CCTV stills we are given, and officer notes are treated as confidential operational records.

8.3 Surveillance and listening devices

Covert optical or listening surveillance is tightly restricted under State and Territory surveillance-devices legislation. OnGuard does not conduct covert surveillance unless a written lawful authority exists. Body-worn cameras, if used, will be used only as the engagement and the applicable Act allow, and people will be notified where the law requires notice.

9. ISO, Australian Standards and quality alignment

Government and Defence tenders often ask for ISO. This Pack distinguishes **alignment** (we design jobs to the control set) from **certification** (a JAS-ANZ accredited body has issued a current certificate). OnGuard does not, in this Pack, claim a current ISO certificate. If a certificate is later issued, it will be scheduled to the relevant contract. Claiming a certificate we do not hold would be misleading under the ACL.

Frameworks we map work to, and that evaluation panels commonly specify:

Instrument	Subject	Typical buyer	OnGuard position
ISO 9001	Quality management system	Councils, agencies, primes	Alignment. Certificate only if scheduled.
ISO 18788	Security operations management	Security and Defence buyers	Alignment of SOPs, use-of-force and incident control.
ISO 27001	Information security management	Defence, critical infrastructure	Alignment. Required for many DISP / ICT packages.
ISO 31000 / AS ISO 31000	Risk management	All government	Used in job hazard analysis and event plans.
ISO 45001	Occupational health and safety	All government	Alignment with PCBU duties.

Instrument	Subject	Typical buyer	OnGuard position
ISO 14001	Environmental management	Some infrastructure tenders	Applied where the Site specification requires it.
AS 4421	Guards and patrols	Australian security buyers	Operational reference for patrol and static work.
PSPF + ISM + Essential Eight	Commonwealth protective security / cyber	Commonwealth and DISP	Applied when the contract classifies information or systems.

10. Defence, military, PSPF, DISP and classified work

Work for the Department of Defence, the Australian Defence Force, a Defence prime, or a classified Commonwealth program sits under a different stack: the Protective Security Policy Framework (PSPF), the Defence Security Principles Framework (DSPF), the Defence Industry Security Program (DISP), the Australian Government Information Security Manual (ISM), and the ASD Essential Eight. DISP is, in Defence's own words, security vetting for Australian businesses. Many Defence contracts require DISP membership at a stated maturity level before a supplier may handle classified information or access a Defence Site.

OnGuard will not pretend to hold DISP membership, a facility security clearance, or individual security clearances unless those are current and named on a signed schedule. If a tender requires them, we will either (a) already hold them and evidence them, or (b) decline or partner until the membership is in force. Submitting a Defence tender on a false security status is a security incident and a misleading representation.

Where OnGuard is a subcontractor to a DISP member, we will comply with the flow-down clauses we sign: personnel sponsorship, need-to-know, no uncleared devices, incident reporting to the prime's security officer, and return or destruction of classified material. Officers who are not cleared will not be put on a cleared post.

Export-controlled technology, ITAR/EAR flow-down, and the *Defence Trade Controls Act 2012* are out of scope unless a schedule says otherwise. The *Security of Critical Infrastructure Act 2018* (SOCi) may apply if the Client is a responsible entity for a critical asset — in that case the Client must tell us before we start.

11. Commonwealth, State and local government tenders

Commonwealth procurement is conducted under the Commonwealth Procurement Rules (CPRs) issued under the *Public Governance, Performance and Accountability Act 2013*. The core rules are value for money, non-discrimination, transparency, and (above the relevant threshold) open tender on AusTender unless an exemption applies. State and Territory regimes sit beside the CPRs. Local government is governed by each State's Local Government Act and the council's procurement policy — typically requiring a public tender above a dollar threshold (commonly \$250,000 including GST in NSW under the Local Government Act and regulation, subject to amendment).

OnGuard will respond to RFTs, RFQs, panels and standing offers with this Pack as Annexure A unless the buyer mandates its own deed. We will not bid a price we cannot resource with licensed labour. We will declare conflicts, prior adverse findings, and any licence condition that would affect performance. Collusive tendering is prohibited.

Primary portals evaluation teams already know:

- Commonwealth — AusTender <https://www.tenders.gov.au>
- NSW — buy.nsw / eTendering <https://buy.nsw.gov.au>
- Victoria — Buying for Victoria <https://www.buyingfor.vic.gov.au>
- Queensland — QTenders <https://qtenders.hpw.qld.gov.au>
- Western Australia — Tenders WA <https://www.tenders.wa.gov.au>
- South Australia — SA Tenders and Contracts <https://www.tenders.sa.gov.au>
- Tasmania — Purchasing <https://www.purchasing.tas.gov.au>
- ACT — Tenders ACT <https://tenders.act.gov.au>
- Northern Territory — Quotations and Tenders Online <https://tendersonline.nt.gov.au>
- Many councils — Tenderlink, VendorPanel, or the council's own portal.

12. Insurance, indemnities and claims procedure

OnGuard maintains, and will produce certificates of currency for, public liability insurance and workers compensation as required by law in the jurisdiction of the Site. Professional indemnity or other classes are held only if stated on the certificate attached to the quote. Clients (especially councils) should not assume a limit or an insurer until they have the current certificate. OnGuard's indemnity to the Client covers loss to the extent caused by OnGuard's negligence or wilful default, reduced to the extent the Client or a third party caused or contributed to it. The indemnity is capped as in section 5 except where the law forbids a cap.

Notify claims immediately to 0432 893 343 and admin@ogprotection.com.au. Do not admit liability on our behalf. Preserve radio logs, CCTV the Client controls, and medical records the injured person consents to release.

13. Personnel, subcontractors and modern slavery

Every operative on a licensed activity holds a current licence of the correct class. We may subcontract to another master-licensed provider; we remain responsible to the Client for the subcontracted performance. The *Modern Slavery Act 2018* (Cth) reporting obligation applies to entities at or above the consolidated revenue threshold. Whether or not OnGuard is a reporting entity in a given year, we will not use bonded, trafficked or child labour, and we will not subcontract to a provider we know does.

Fair Work Act minimums, awards and casual conversion rules apply to our labour. Clients must not dictate rates that would force an award breach.

14. Confidentiality, intellectual property and records

Each party must keep the other's confidential information confidential, except for disclosure to insurers, lawyers, regulators, and as a court or statute requires. Run-sheets, event plans and SOPs we create remain OnGuard intellectual property. The Client receives a licence to use them for the Site and the term. We keep operational records for at least seven years, or longer if a government contract says so.

15. Fees, variations, cancellation and force majeure

Fees are as quoted. Variations (extra hours, extra officers, a change of Site) must be agreed in writing where practicable; in an unfolding incident the Client's authorised person may instruct a variation and we will confirm as soon as practicable. Payment terms are 14 days from invoice unless the quote says otherwise. Overdue amounts may attract interest at the Reserve Bank cash rate plus 4% per annum.

Cancellation: if the Client cancels more than 72 hours before start, no fee. Inside 72 hours, a fee not exceeding the unavoidable labour and travel we cannot redeploy — a genuine pre-estimate, not a penalty. If we cancel for a reason other than force majeure or a Client breach, the Client pays nothing for the cancelled portion and may claim an ACL remedy if one applies.

Force majeure includes flood, fire, pandemic direction, industrial action we do not control, and a government order that makes the deployment unlawful. Duties are suspended while the event continues. The ACL still applies to any failure that is not genuinely caused by the event.

16. Complaints, disputes and regulators

Complain first to OnGuard (section 4.3). If unresolved: the applicable civil and administrative tribunal (NCAT, VCAT, QCAT, SACAT, SAT, TASCAT, ACAT, NTCAT) for consumer and small-business disputes within jurisdiction; a court of competent jurisdiction; the ACCC or a State consumer agency for ACL conduct; SLED or the local licensing authority for licence conduct; SafeWork / WorkSafe for WHS; the OAIC for privacy. Nothing in this Pack is an arbitration clause that blocks a statutory complaint.

17. Governing law, severance and entire agreement

This Pack is governed by the laws of New South Wales and the Commonwealth of Australia. The parties submit to the non-exclusive jurisdiction of the courts of New South Wales. If a provision is invalid, it is severed or read down. This Pack plus the accepted quote or purchase order is the entire agreement, except for any non-excludable statutory term. A waiver must be in

writing. We may update this Pack on the website; the version cited on the quote is the version that applies to that booking.

Schedule A — State and Territory licence matrix

This matrix is a procurement aid. Always confirm the current Act and the live register before award. OnGuard's issued master licence at the date of this Pack is NSW only, unless a later schedule says otherwise.

Jurisdiction	Principal Act	Business licence	Regulator / register
New South Wales	Security Industry Act 1997	Master licence (OnGuard: 000110094)	NSW Police SLED — verify.licence.nsw.gov.au
Victoria	Private Security Act 2004	Business (operator) licence	Victoria Police LRD
Queensland	Security Providers Act 1993	Security firm licence	Office of Fair Trading
Western Australia	Security and Related Activities (Control) Act 1996	Agent / consultant / crowd control agent	WA Police Licensing Services
South Australia	Security and Investigation Industry Act 1995	Agent licence	Consumer and Business Services
Tasmania	Security and Investigations Agents Act 2002	Agent licence	CBOS / Department of Justice
Australian Capital Territory	Security Industry Act 2003	Master licence	Access Canberra
Northern Territory	Private Security Act 1995	Crowd controller / security officer licences + crowd controller/security firm	Licensing NT

Mutual recognition under the *Mutual Recognition Act 1992* (Cth) and automatic mutual recognition arrangements may allow an individual licence to be used across borders, subject to notifications and excluded activities. They do not automatically authorise a company to carry on a security business in a second State without that State's business/master licence if the local Act requires one.

Schedule B — ACL remedies decision map

Read top to bottom. This is a plain-English map of ss 60–62 and 267–269. It is not a substitute for legal advice on a hard case.

Step	Question	If yes	If no
1	Were the services supplied in trade or commerce in Australia?	Go to 2.	ACL consumer guarantees do not apply. Contract and other statutes still might.
2	Is the Client a consumer (household-type services, or price at or under the threshold)?	Guarantees apply. Go to 3.	Guarantees may still apply if the services are of a consumer kind. Otherwise see s 64A and the contract.
3	Were the services rendered with due care and skill, fit for the stated purpose, and in a reasonable time?	No ACL failure. Commercial goodwill only.	Go to 4.
4	Is the failure major (cannot be remedied in time, or substantially unfit)?	Client may terminate and claim a refund / compensation for reduction in value.	OnGuard may re-supply or pay the reasonable cost of re-supply.
5	Did the Client cause the problem (bad brief, lock-out, unlawful direction)?	Not an ACL failure of our guarantees. Cancellation terms may apply.	Remedy under 4. Document the investigation.

Schedule C — Tender and Defence pathway

How an evaluation panel should read OnGuard against a typical government or Defence package. Boxes are sequential.

Gate	What the buyer asks	What OnGuard tables	Stop / go
G1 Licensing	Valid master licence in the jurisdiction of the Site	NSW ML 000110094 on SLED register. Other States only with a current local licence schedule.	STOP if the Site is outside a licensed jurisdiction.
G2 ACL / UCT	Terms that do not void consumer or small-business rights	This Pack, ss 4–6. No “no refunds”. s 64A limit only where lawful.	STOP if the buyer’s own deed forces an unlawful exclusion — we will mark it up.
G3 WHS / insurance	PCBU duties, workers compensation, public liability	Certificates of currency + Site JHA. Dual-PCBU consult.	STOP if the Client will not induct or will not disclose a known serious hazard.
G4 ISO / quality	9001 / 18788 / 27001 / 45001 as specified	Alignment statement in s 9. Certificates only if scheduled. No fake certs.	GO on alignment. CONDITIONAL if the RFT mandates a numbered certificate we do not yet hold.
G5 Privacy / records	APPs, information handling, seven-year records	s 8.2 and s 14. Flow-down APPs accepted on government paper.	GO unless the package requires a full IRAP assessment we have not scoped.
G6 Defence / classified	DISP, PSPF, DSPF, clearances, Essential Eight	s 10. Honest status. No DISP claim unless current.	STOP on classified work without the required DISP / clearance schedule.
G7 Price and labour	Sustainable licensed labour, no collusion	Award-compliant rates. Named licence classes on the roster.	GO if the roster is licensed and the price can be staffed.

Schedule D — NSW individual licence classes we deploy against

NSW Class 1 licences (Security Industry Regulation). The class on the officer must match the activity. This is the roster rule, not a training brochure.

Class	Activity	Typical OnGuard use	Will not deploy
1A	Unarmed guard	Static, patrol, concierge, construction gate	Armed work
1B	Bodyguard	Close personal protection if scoped	Unscoped VIP work
1C	Crowd controller	Venues, rodeos, events, after-parties	An unlicensed door
1D	Guard dog handler	Only if the quote names a dog team	Improvised animals
1E	Monitoring centre	Not a current OnGuard product line	Claiming a 1E post we do not staff
1F	Armed guard	Not offered unless separately licensed and scheduled	Firearms on a 1A/1C roster
2A / 2B / 2C	Technician / consultant / trainer classes	Only if a Class 2 holder is named	Unlicensed install or training

Schedule E — Indicative local government tender thresholds

Thresholds move. Confirm the Local Government Act, regulation and the council’s current procurement policy before you treat this as the award rule. Figures are inclusive of GST unless the council policy says otherwise.

Jurisdiction	Typical public-tender trigger	Where to confirm
NSW councils	Often \$250,000 (LG Act / regulation — confirm current figure)	Office of Local Government + the council policy
Victorian councils	Council policy under the Local Government Act 2020	Buying for Victoria / council procurement policy

Jurisdiction	Typical public-tender trigger	Where to confirm
Queensland councils	Council policy; sound contracting principles in the LG Act 2009	QTenders and the council contracting plan
WA local governments	Tenders required above the regulated threshold (confirm current \$)	Department of Local Government + Tenders WA
SA councils	Council policy under the Local Government Act 1999	SA Tenders and the council procurement policy
Tasmanian councils	Council code / Local Government Act 1993	purchasing.tas.gov.au and the council code
ACT Government	Government Procurement Act / regulation (Territory, not a council)	Tenders ACT
NT local government	Local Government Act 2019 + council policy	tendersonline.nt.gov.au

Schedule F — How to attach this Pack to a tender

- File this PDF as Annexure A — Legal, Liability and Compliance.
- Attach the current SLED extract for Master Licence 000110094.
- Attach certificates of currency (public liability and workers compensation as a minimum).
- If the RFT demands a numbered ISO certificate or DISP membership, either attach the current certificate or mark the requirement as a condition subsequent — do not tick “held” if it is not held.
- Attach the named roster with licence class and expiry for every officer proposed for the first four weeks.
- If the Site is outside NSW, attach the local master/firm licence or do not bid.

Schedule G — Acceptance block (optional)

For use when a Client wants to adopt this Pack without a long-form deed. Signing does not waive ACL rights.
